

# Product: Silicaflex™ Tape AB MATERIAL SAFETY DATA SHEET

Emergency contact: ADL Insulflex, Inc.

(address & emergency phone numbers - page 4)

Revised:
June 2008

Chemical family: Amorphous silica
Formula: Proprietary Mixture

Description: Amorphous silica yarn woven into a tape with

an adhesive backing.

#### 2. Composition / Information on ingredients

No Hazard rating is available for this product

Product composition Approx. % CAS Reg. No. Wt.

\_\_\_\_\_

Amorphous silica #7631-86-9 96%

Hydrocarbon coating 0.3% - 0.5% (% of actual coating as a % of the

base silica material)

3. Hazards identification

Proprietary adhesive

Ingestion: May cause temporary irritation of the digestive

tract, but not an expected route of entry in

industrial uses.

Skin contact: Temporary irritation of skin may be produced.

Eye contact: May cause mild eye irritation.

Inhalation: Inhalation of airborne fibers may cause irritation to

the mouth, nose and throat.

Medical conditions aggravated:

Sub-chronic (target organ) effects:

None known

None known

Chronic effects/carcinogenic: There are no known chronic health effects

associated with the use of this product under normal working conditions. None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA, or ACGIH as a

carcinogen.

Principle routes of exposure:

Other:

Skin contact, inhalation, ingestion & eye contact.

#### 4. First Aid measures

Ingestion: Seek medical attention immediately.

Skin: Wash thoroughly with warm water and non-

abrasive soap.

Inhalation: Remove person from source of exposure and

Then seek medical attention immediately.

In case of eye contact: Flush for 15 minutes with copious quantities of

lukewarm water. Seek medical attention if

irritation persists.

Note to physician: None known.

## 5. Fire-fighting measures

Flash point: N/A

Auto Ignition temp. Not determined

Flammable limits in air – upper % N/A
Sensitivity to mechanical impact: No
Sensitivity to static discharge: No

Extinguishing media: Standard fire-fighting media

Special fire fighting procedures:

The base silica material is non-combustible.

The hydrocarbon coating and adhesive system may produce irritating and/or toxic gases in a sustained fire. Wear full fire fighting protective equipment including self-contained breathing

apparatus.

#### 6. Accidental release measures

Dust or loose fibers can be vacuumed or swept with the aid of a dust suppressant. Dispose according to governmental regulations.

# 7. Handling and storage

Precautions for handling and storage: Normal warehouse conditions. Particular care

should be taken to minimize dust when working with "used" material. If exposure limits are exceeded, or if irritation is experienced, NIOSH approved respiratory protection should be worn.

#### 8. Exposure controls / Personal protection

Engineering controls: None known

Respiratory protection: Wear an approved disposable dust respirator

designed for nuisance-type dusts.

Protective clothing: Wear rubber gloves when handling this product.

Personnel that are more susceptible to irritation

from fibers or dusts should wear full-body

coveralls.

Eye and face protection: Safety glasses with side shields or chemical splash

goggles must be worn to prevent eye contact. A good safety practice is to have an eye wash station

readily available near the work area.

Other protective measures: Use good personal hygiene practices. The use of

protective cream before handling the material may

prove beneficial.

Ventilation: Local exhaust and/or general mechanical

suggested

Exposure limits:

Amorphous Silica

PEL (OSHA) 80mg/m<sup>3</sup>+% SiO<sub>2</sub> OR 20 mppcf

TLV (ACGIH) 10 mg/m<sup>3</sup> (inhalable); 3 mg/m<sup>3</sup> (respirable)

NIOSH 6 mg/m<sup>3</sup> IDLH 3000 mg/m<sup>3</sup>

Hydrocarbon coating

& adhesive systems: This product is not considered hazardous as

defined by 29 CFR 1910.1200 (OSHA Hazcom

Standard)

#### 9. Physical and chemical properties

Boiling point: 4046°F

Vapor pressure: Not determined Vapor density: Not determined

Freezing point:

Melting point:

Physical state:

Odor:

Specific gravity:

volatile by volume

N/A

>3000°F

Solid

None

2.20

Not known

pH: Not known Solubility in water: Insoluble VOC: Not known

## 10. Stability and reactivity

Stability: Stable

Hazardous polymerization: Will not occur.

Combustion products: Carbon dioxide, carbon monoxide and possibly

other compounds of unknown composition.

Conditions to avoid: Base silica material is incompatible with basic phosphates, hydrofluoric acid, and some oxides

phosphates, hydrofluoric acid, and some oxides and hydroxides. Adhesive backing is incompatible

with strong oxidizers and strong acids.

#### 11. Toxicological information

Material which has been subjected to elevated temperatures (>1800°F) may undergo partial conversion to cristobalite, a form of crystalline silica, which may cause respiratory illness. The amount of cristobalite present will depend on the temperature and the length of service. The OSHA PEL for cristobalite is 0.05 mg/m³ (respirable).

#### 12. Ecological information

No information is available; however, toxicity is expected to be low, based on the insolubility in water of the product.

#### 13. Disposal considerations

Disposal method: User should follow normal methods of disposal in

accordance with any governmental regulations.

#### 14. Transport information

DOT shipping name:

DOT hazard class:

None

DOT label:

UN/NA label:

Placards:

IATA:

IMO IMDG code:

N/A

European class:

RID (OCTF): N/A
ADR (ECE): N/A
RAR (IATA): N/A

#### 15. Regulatory information

SARA Section 313 None CPSC classification: N/A

WHMIS hazard class: Non-regulated

Harmonized code: 7019.39

Hazard rating systems

HMIS: Not known NFPA: Not known

#### 16. Other

Users are advised to ensure that this information is brought to the attention of their employees handling the product. The information given herein is believed to be reliable. However, ADL Insulflex, Inc. makes no warranties as to its accuracy or completeness and disclaims any liability in connection with its use. ADL Insulflex, Inc.'s obligations shall be only as set forth in ADL Insulflex, Inc.'s standard terms and conditions of sale for this product. In no case will ADL Insulflex, Inc. be liable for any incidental, indirect or consequential damages arising out of the sale, resale, use or misuse of the product.

Users of ADL Insulflex, Inc. products should make their own evaluation to determine the suitability of each such product for the specific application and to establish safe handling and installation procedures.
